Technology enthusiast

## **OBJECTIVE**

---

My goals are to share my experience of over 20 years and continually learn from a motivated team in a dynamic and structured company to always move projects forward with a smile.

## **ADDRESS**

---

40 rue Renaud  
St-Jacques-le-Mineur, Qc  
J0J 1Z0

## **EXPERIENCE**

---

### **TECHNICAL SPECIALIST**

#### **• CAE (MONTREAL, QC.)**

Responsible for the evaluation and documentation projects for flight simulators before and after delivery. I am responsible for requirement analysis, database architecture, implementation and release procedures, as well as the development team, code quality and unit and functional testing. Our team of 5 programmers directly deal with the development and support of more than 50 web applications, developed in PHP and ASP, in the civil aircraft simulator deployment group of more than 200 engineers and 5 applications used by more than 5,000 employees all over the world.

**• MARCH 2009 – PRESENT**

### **PROGRAMMER/ANALYST**

#### **• SNC LAVALIN (MONTREAL, QC.)**

Responsible for the analysis and development of Intranet applications in PHP and ASP for the application solutions and human resources departments. In charge of the user training.

**• MAY 2008 – MARCH 2009**

### **PROGRAMMER/ANALYST**

#### **• IVACO ROLLING MILLS (L'ORIGINAL, ONT.)**

Responsible for the analysis and development of Intranet applications in PHP and ASP for accounting, human resources and sales departments. Report creation with Crystal Reports and PHP. In charge of the user training.

**• APRIL 2007 – MAY 2008**
